

Dear Colorado State Employees:

I am pleased to announce that in association with Ameriprise Financial, we are offering a Workplace Financial Planning program designed to help you make the most of the benefits we provide.

Complex workplace benefits can make it difficult for employees to make informed decisions. Ameriprise Financial offers a unique and collaborative *Dream > Plan > Track >@* approach to financial planning that can help you incorporate your pay, retirement and health and welfare benefits – into your overarching financial dreams, from your child’s college education to how you will reinvent yourself at retirement.

The financial planning program is supported by financial education designed to provide value and insight. Periodic seminars and one-to-one consultations will provide information on relevant financial topics. An Ameriprise financial advisor will help you plan for retirement, develop investment strategies, save for education expenses, manage your taxes more efficiently and protect what matters most to you.

If you decide to start a planning relationship with an Ameriprise financial advisor, you will receive \$100 off your initial planning fee. We know that helping you plan for tomorrow is one way we can contribute to your success.
